POSITIONING

Delivery leader with 7+ years governing high-value programs across Aerospace (UAS manufacturing), Enterprise GIS, and Industrial services for global clients — Jio-bp, Bayer, Syngenta, Mitratel, HERE, Apple, Grab, ONGC, Coal India, IOCL, GAIL. End-to-end lifecycle owner: scope, budget, RFA compliance, invoicing, KPIs/KRIs/SLAs, OPEX, SOP standardisation, and Python/AI automation under ISO-aligned data governance.

CORE CAPABILITIES

Project Lifecycle	Scope → Estimation → RFA → Delivery → Invoicing
Performance Governance	KPI / KRI / SLA design and enforcement
Operational Excellence	SOP standardisation, OPEX, capacity systems
Automation	Python / AI-driven latency reduction
Compliance	ISO-aligned data governance & QA
Scale	200+ person operations, multi-vertical

OUTCOMES // SIGNAL

- Governed 10+ high-value programs end-to-end across Aerospace, GIS, and Enterprise services.
- Reduced manual handling latency 40%+ via Python/FME ETL restructuring at production scale.
- Designed KPIs/KRIs/SLAs that safeguarded timelines across concurrent multi-team delivery streams.
- Led 200+ person operations with mixed-skill teams under tight delivery cadence.
- Delivered FICCI-recognized spatial ROI for Jio-bp at enterprise scale.
- Governed 70K+ km QA delivery with consistent release confidence on HD mapping programs.
